

Snapshot: Life After ICC

Chitra Karki

Programme:
Diploma of Higher
Education in Theology

Current Ministry:
Pastor

Why did you choose to study at ICC?

A Scottish friend introduced me to ICC and told me it was the right place to learn more about our Lord Jesus and to apply that teaching to ministry among my people in Nepal.

In fact, I found that ICC was a place where I could learn more than he mentioned! As a result of being at the college, I found a vision for Evangelism and Church planting. And now, by the grace of God, I am able to plant new Churches in the villages in my area of Nepal.

What did you like about the programme?

This is a difficult question because I liked all aspects of the programme. But I particularly enjoyed practical theology, counselling homiletics, and mission studies.

What work or ministry are you involved in now?

I work in church planting and evangelism in the village as well as social care and running an orphanage.

How did your studies help you in your current work / ministry?

I feel I am very much in debt to ICC and its lecturers who set God's fire in my life and I hope I am able to do same through my ministry in Nepal. When I thought about mission before I came to ICC I think I was quite short-sighted - now I can see much further! In other words, whatever I have learned from being at ICC has helped me to nourish the Body of Christ here in Nepal.

“When I thought about mission before I came to ICC I think I was quite short-sighted - now I can see much further!”
