

Snapshot: Life After ICC

Gerard & Sarah Charles

Programme:
BA Theology,
and Diploma of
Higher Education in
Theology

Current Ministry:
Working in East Asia

Why did you choose to study at ICC?

We were looking for some further training before going to work overseas

What did you like about the programme?

It was a privilege to have time to read so many great books and study in depth. We enjoyed our courses, made some great friends and grew in our faith.

What work or ministry are you involved in now?

We are involved in both reaching out to a people group who have not heard the gospel as well as being field directors overseeing about 100 members.

How did your studies help you in your current work / ministry?

Learning from students from other cultures and denominations was very useful as we live and work in a multicultural and interdenominational setting. Courses on Christology and Biblical interpretation are especially useful for discussions with people of a different religious worldview.

“Learning from students from other cultures and denominations was very useful as we live and work in a multicultural and interdenominational setting.”
