

## Snapshot: Life After ICC

**Norman  
Graham**

**Programme:**  
BA Theology

**Current Ministry:**

Minister, Denny Baptist Church

**Why did you choose to study at ICC?**

I knew some people who had been there and it was highly recommended.

**What did you like about the programme?**

The diversity of studying with people from different Church traditions and cultures challenged my Western / Scottish presuppositions about the faith.

I liked the fact that the programme was academically rigorous but was also taught by people with practical experience as well.

**What work or ministry are you involved in now?**

I am a minister of a baptist church in central Scotland.

**How did your studies help you in your current work / ministry?**

Studying at ICC gave me the tools essential to my ministry - how to exegete the text of the Bible as well as how to work with others. I also learned the importance of mission and the value of other people's perspectives, without which I simply couldn't fulfil my ministry.
